Instructions for online classes for admitted foreign (Chinese) international students:

Due to the special circumstances of the current period (including the war + epidemic period), the admission of full-time international students of bachelor, master and doctoral education programs has been studied by the university management and the Ministry of Education and Science:

1. The online registration and online teaching mode adopted is in line with the relevant policy requirements and does not affect the normal enrollment and graduation of students.
2. This teaching method is different from on-the-job and distance education courses, and belongs to full-time degree education courses.
3. This model complies with the laws and regulations of the Ministry of Education and Science of Ukraine.
4. Follow up the epidemic situation and the impact of the war before making actual adjustments.
